

Radio Sharing Agreement

This agreement is made between the Washington State Department of Natural Resources (hereafter “DNR”) and the City of Everett (hereafter “Cooperator”).

WHEREAS, DNR and Cooperator are eligible for and licensed by the Federal Communications Commission (FCC) to use certain radio frequencies in the Public Safety Pool (47 CFR 90.15) and are authorized to share Radio Stations under the provisions of the FCC Rules §90.179.

THEREFORE, IT IS AGREED:

1. DNR and Cooperator shall share radio system components and channels to facilitate public safety and mutual aid during wildfire and other emergency events. Shared use is intended for inter-agency communications and, unless otherwise provided for, is not intended for routine operations or to otherwise supplant the other agency’s radio system.
2. DNR and Cooperator shall share radio system components as defined in **Exhibit A – Shared Radio System Components**, which by this reference is made a part hereof.
3. DNR and Cooperator shall share the radio system components on a non-profit cost share basis. Unless otherwise provided for, each party shall be responsible for all costs required to configure, maintain, and repair their radio equipment.
4. Both parties acknowledge that all shared transmitter use shall be subject to the licensee’s control as required by FCC Rule §90.179.
5. Both parties shall, “Exercise discretion and control to ensure that radios are used only for the permitted purpose, only in the permissible manner, and only by persons with authority to use and operate the equipment,” as required by FCC Rules §90.403 (a).
6. All radio transmissions shall include the sending unit identification and the radio station call-sign indicated in Exhibit A as required by FCC Rule §90.425.
7. Each party shall provide points of contact for the administration of this agreement as defined in **Exhibit B – Contact Information**, which by this reference is made a part hereof.
8. This agreement may be terminated by either party by providing written notice to the other party’s point of contact; such termination shall be effective upon receipt.

IN WITNESS WHEREOF, the parties hereto have hereunto subscribed their names

Budget Remaining	-0-	
Additional Required	-0-	

DETAILED SUMMARY STATEMENT:

The radio system used by the City of Everett Watershed Patrol to monitor activity in both the Spada Reservoir and Lake Chaplain watersheds as well as to contact the Washington Department of Fish and Wildlife (WDFW) and Washington Department of Natural Resources (DNR) law enforcement officers when needed has undergone recent changes. These changes now require the use of different frequencies which are used by WDFW and DNR. DNR holds the authority to share these radio channels with other agencies for public safety.

This no cost Radio Sharing Agreement will grant the City's Watershed Patrol permission to use DNR Tactical 1 and 2 radio channels, as well as, the proximity Repeater frequencies.

RECOMMENDATION (Exact action requested of Council):

Authorize the Mayor to sign the Radio Sharing Agreement with the Washington Department of Natural Resources to share frequencies on their radio system with Watershed Patrol personnel.

Council approved
